

# TMA/CHEMNET Solid Solutions

**SECURE** is a creamy white, smooth uniform warewash solid designed specifically for use with automatic dispensing equipment. It is neither too hard nor too soft, but dissolves at just the right speed to provide uniform level of your capsule. SECURE contains highly effective functional ingredients that fight stubborn food soils and provide reserve capacity for tough cleaning jobs.

**Item #108636**

**SECURE XC** is a creamy white, smooth uniform warewash solid designed specifically for use with automatic dispensing equipment. SECURE XC provides far more water softening and cleaning agents to handle the toughest water conditions.

**Item #108637**

## **SOLID METAL SAFE**

is a non-phosphate metal safe detergent and contains no chemicals considered harmful to aquatic life. The formulation has been accepted by the US Environmental Protection Agency, Design for the Environment, and is the recipient of this coveted award from the government.

**Item #108640**

## **SPARKLE RINSE AID**

is a highly concentrated solid formulated to work in the rinse waters used in both high and low temperature warewash machines. It contains a highly effective combination of defoamers and wetting agents which decrease drying time and leaves dishes and flatware spot and streak free.

**Item #108639**

## **SOLID SILVER SOAK**

is an alkaline detergent solid designed for pre-soaking and detarnishing flatware. It contains both alkaline ingredients and a combination of surfactants to provide for the rapid penetration of hardened food soils and the removal of discoloring films. Dual Enzyme activated for quicker food soil removal.

**Item #108630**

## **MAX POT & PAN DETERGENT**

is a mild, pleasantly-scented, highly-concentrated manual warewash solid designed for use with automatic dispensing equipment. Because MAX is so concentrated, a little goes a long way. MAX contains highly effective emulsifiers and grease cutters and yet is mild to the hands. It has the ability to suspend heavy soils and greases while providing rich, long lasting suds.

**Item #108638**

## **REGAL**

is a highly-concentrated, high alkaline solid laundry detergent that has several powerful surfactants each with a specific cleaning function, antiredeposition agents, hard surface cleaners, optical brighteners, water conditioning agents and stain lifting ingredients. These unique ingredients are present in quantities not previously possible in other products. For removal and suspension of soils and stains over a wide range of wash temperature and water hardness conditions.

**Item #108646**
