

Manufacturing Solutions

Solutions that save time, money and labor for your facility.

BETCO®

A Company You Can Bet On

Since 1950, we are driven by our mission to create cleaning innovations that matter for healthier environments. This mission is based on improving the way facilities approach their cleaning and maintenance programs. This can only be accomplished by manufacturing the very best solutions. Betco® is committed to being the industry’s leading manufacturer of cleaning innovations that matter, not only to us, but to you.

The Betco Manufacturing Program is specifically designed to create a positive image for your customers, vendors and employees. Whether it is the cleaning of the entrances to the front offices or maintaining work stations to concrete aisles, we have the right solutions.

Asset Preservation

Betco provides the correct products and procedures to protect all of your surfaces. From concrete floors to carpeted areas in your facility, our innovative solutions maximize your desired results.

Environmental Solutions

We are dedicated to promoting environmental, sustainability efforts in water conservation and product designs, making our products safer for downstreaming or employee use. Our clean and natural products will help you implement a complete sustainable program, accomplishing your LEED goals or community stewardship.

Safety

All of our products are designed with safety in mind. Following OSHA written procedures for chemical handling and training, our designs are driven to reduce instances like slip and fall accidents in facilities.

Facility Impression

From the restrooms to the break rooms, your facility leaves an impression on vendors, customers and your employees. Our solution strategies can help you ensure a productive, safe and clean environment for everyone in your facility.

Latest Innovations for the Entire Facility

Crete Rx™ Polished Concrete and Terrazzo Maintenance System

The simplest, most cost effective concrete maintenance system on the market. Achieve extraordinary results while maintaining a smooth, polished surface. By using advanced technology at every step, Crete Rx™ removes wear and stains, creating an image that will impress your vendors, customers and employees.

Smart Restroom System

The Smart Restroom System (SRS) is just that, SMART! Regardless of if your facility is LEED certified, water conservation has a positive impact on the environment. This award winning design can save you up to \$600.00 a year per urinal and utilizes your current urinals, making the conversion almost instant.

MotoMop™ Small Area Cleaning Machine

The MotoMop™ provides a true clean that is 4x faster, picks up 98% more soil and uses less water than a mop and bucket, leaving your floors fully dry after use. You can clean better, faster and safer with easy storage for quick access and react quickly to spills, reducing the risk of slip and fall accidents.

Industrial Microbial Degreaser

BioActive Solutions™ Grease Solv is an industrial degreaser with a proprietary surfactant package including a high count of non-pathogenic microbial organisms geared for petroleum soils and other industrial organics. The microbes aid in digesting organic material before they travel downstream to cause further upsets.

Innovations That Matter Everywhere You Work

A Entry Way / Lobby: Let us help make a great first impression by optimizing your hard surface floors, carpet, mats and glass doors with Betco's customized program.

B Breakroom: Get the right products to correctly clean and sanitize. Some virus and bacteria can live from twenty minutes to two hours or more on surfaces like cafeteria tables, food prep areas and doorknobs.

C Office Space and Hallways: Increase your employee wellness by keeping a safe and clean facility with our surface disinfectants, carpet program and floorcare products focused on mitigating slip and fall.

D Locker Room: Triton® Skincare program will help save the skin of your hard working employees and our EPA registered disinfectants will kill germs and cut through shower soap scum.

E Restrooms: Clean, healthy and smelling fresh. Get a complete sanitation program from disinfectants, cleaners and odor control products.

F Rapid Refill Tote: Fast, accurate and safe. Dilute industrial grade degreasers for the largest of jobs.

G Janitorial Closet: Our FastDraw® Chemical Management system can save you space and money. Multiple Green products to choose from for environmentally responsible cleaning!

H Manufacturing: A different approach is required when maintaining the manufacturing area of your facility compared to front of the house. Downstream of our products will be compliant to the stringent pH requirements to avoid expensive waste treatment.

I Work Stations: We have a product for every industrial application from spray and wipe degreasers to citrus solvents to all sizes of walk behind scrubbers keeping your work areas clean.

Degreasers

A Solution for Every Manufacturing Application

Equipment

A Solution for Every Manufacturing Application

From the entrance to the work station, powered equipment increases productivity cleaning and labor savings.

E29800
Crete Rx™ CP30
Concrete Polishing Machine
3,375 sq.ft./hr productivity

E29900 / E29910
Foreman® AS26HD / AS32HD
Large Walk-Behind Autoscrubber
26-in Path or 32-in Path,
24-gal, Battery

E87028
Stealth® ASD20BT
Small Walk-Behind Autoscrubber
20-in Path, 10.5 gal, Transaxle
Drive, Battery

E85027 / E83012
Workman® 10 / 20
Wet / Dry Vacuums
10 or 20-gal, available with
front squeegee

E87026
Stealth ASD26BT
Mid-Size Walk-Behind Autoscrubber
26-in Path, 16-gal, Battery

E84700
Motomop™
Small Area Cleaning Machine
13-in Path, Battery

E29926 / E29931
Stealth DSR26BT / DSR32BT
Rider Autoscrubber
26-in Path or 32-in Path,
29-gal, Battery

E83039
Genie™ B
Micro-Scrubber
14-in Path, Battery
